HOW MUCH OIL DOES INDIA IMPORT AND PRODUCE?

232.4
MILLION TONNES
India's crude oil imports in FY23, up 9.4% y-o-y

$158.3
BILLION
(Rs 13 lakh crore)
Value of India's oil imports in FY23, up 31% y-o-y

29.2
MILLION TONNES
India's crude oil production in FY23, down 1.7% y-o-y

HOW WILL THE CUTS HIT INDIA'S CURRENT ACCOUNT DEFICIT?

$18.2
BILLION
(2.2% of GDP) India's CAD in Q3FY23*

- Current account deficit (CAD) is the difference between the inflow and outflow of foreign exchange
- When crude oil prices rise, India will have to pay more for imports, widening the current CAD
- A higher CAD can further weaken the rupee and stoke inflation. It can also trigger higher borrowings, leading to higher debt levels

KERALA/HIGHER EDUCATION

COURSE CORRECTION

By Jeemon Jacob

The rising unemployability among Kerala's educated youth has brought the state government to the classrooms. The higher education department has mooted fundamental changes in the structure of collegiate education, the central piece being four-year degree courses, to be introduced from the 2024-25 academic session. The state expects that the new undergraduate course, shaped under University Grants Commission (UGC) directives, will brighten the career prospects of youth.

Nearly 40 per cent of Kerala's educated youth—23 per cent of the state's population—have remained unemployed in the last five decades. Kerala has one of the highest rates of unemployment among the educated and skilled youth in the country, according to the state's Economic Survey 2022. It has resulted in large-scale migration from the state for job opportunities elsewhere. Even the unemployment rate of women who are more educated
