AN URBAN TOUCH TO EVERY VILLAGE

With a vision to create inclusive and sustainable growth across both urban and rural areas, the Telangana government has implemented several initiatives to uplift communities, improve infrastructure, and enhance the overall quality of life for its residents. Recognizing the importance of inclusive growth, Telangana has prioritized rural development initiatives to bolster agrarian communities and bridge the urban-rural divide. Telangana's urban development focuses on transforming cities into vibrant and liveable spaces, ensuring the provision of basic amenities, and promoting economic growth.

Telangana State shot to global prominence for the scientific precision and meticulous execution of the multipurpose engineering marvel- the Mission Bhagiratha. This unparalleled initiative remains a boon for 23,999 rural habitations and 142 Urban Local Bodies (ULBs), which are now enjoying portable drinking water supply; 1.06 crore households in Telangana have been provided tap connections while functional tap connections are provided in all Schools and Anganwadis.

Telangana has seen remarkable development at both rural and urban levels with its pioneering Palle / Pattana Pragathi. The State Government has been releasing Rs 148 crore to ULBs every month.

Every gram panchayat (GM) now has a dump yard, a tractor, a vehicle for waste collection and water tankers for avenue plantation. The concentration on the interiors with exclusive initiatives is paying off. Around 56 GPs, 16 mandals and seven ZPs have been rewarded with national honours while 23 ULBs walked away with Swatch Survekshan – 2022 awards and 3 ULBs won awards under ISL.

Dharani is yet another unique scheme that comes as godsend for land registrations. 61.43 lakh khatas covering over 1.48 crore acres of agriculture land have been Aadhaar seeded, cleared and the beneficiaries issued Pattadar passbooks. Over 78.16 lakh acres pertaining to government land/forest land/public assets have been verified and duly catalogued.

The Government has taken up construction of people-friendly Integrated District Offices Complexes (IDOC) in 29 Districts. The one-stop facility saves individuals from going around offices.

After the formation of Telangana, 1875 Km double-line roads have been laid at a cost of Rs 2777 crore. Of the 717 bridges that have been taken up at a cost of Rs.3134 crore, 350 bridges have been completed.

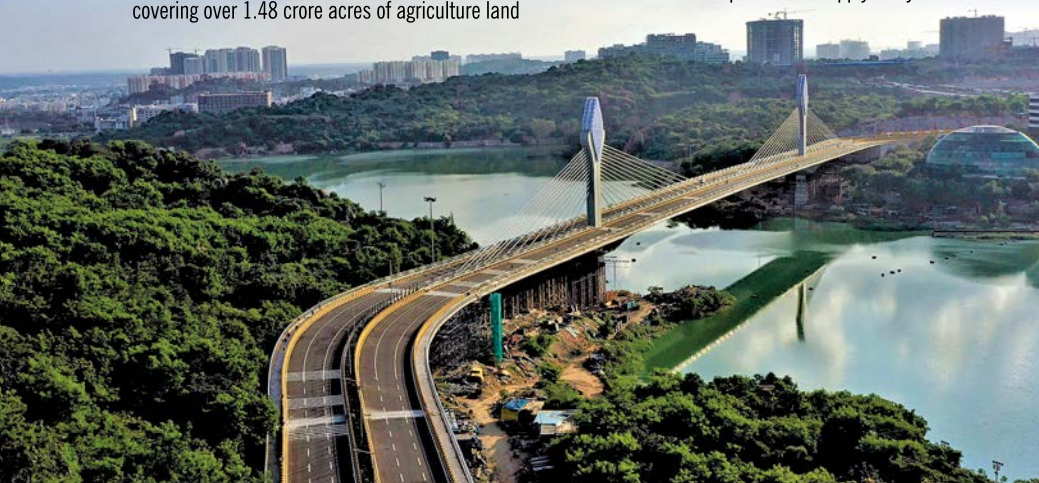

Haritha Haaram is the world's third largest effort to increase green cover and stretches upto 33% in the state. The State has made huge strides towards this-273 crore saplings have been planted so far; 12.63 lakh acres of forest area have been restored and 179 Urban Forest Parks have been created with an outlay of Rs. 700 crore.

In its bid for a cleaner and greener Hyderabad, the State Government spent Rs. 67,149 crore on major GHMC infrastructure projects like laying major roads, providing missing links /slip road and strengthening Disaster Response Force.

A world-class mega infrastructure project is in place to ease the problem of traffic congestion in Hyderabad with the 69-km Hyderabad Metro Rail Limited (HMRL) at a cost of around Rs 22,000 crore in the PPP Mode. In addition, the state government has completely funded the 31 km Airport Metro project, costing around Rs.6,250 crore.

To make Hyderabad a one hundred percent sewerage treated city, 31 STPs of 1259 MLD treatment capacity, at a cost of Rs.3,866 crore, is under implementation within the GHMC limits.

Regarding drinking water additionally 62 storage reservoirs of 280 ML capacity and 2,100 km pipeline work has been taken up in the peripheral circle of GHMC, costing Rs 1,900 crore. The Rs.2,214 crore Sunkishala intake project at Nagarjuna Sagar ensures uninterrupted water supply to Hyderabad.
